# Subject Index to Volume 14

## **$\alpha$ -crystallin**

glycation, ascorbic acid, circular dichroism, cataract, dehydroascorbic acid, protein modification, calf (bovine) 163

## **Acarbose**

hemodynamics, retina, diabetes, rats 741

## **Acridine orange**

retinal microcirculation, scanning laser ophthalmoscope, endothelium, leukocytes, rat 233

## **Activated T lymphocyte**

endogenous uveitis, exogenous uveitis, aqueous humor, two-color flow cytometry, human 425

## **Active transport**

sodium chloride intake, lens crystallins, potassium channels, electrophysiology, rats 159

## **Adaptation**

arrestin, human retina, immunohistochemistry 1165

## **Adenosine**

electroretinogram (ERG), retinal pigment epithelium (RPE), retina, chick 685

## **Adenosine receptor**

blood flow, choroid, ischemia, retina, cat 323

## **Aging**

cataract, oxidative stress, glutathione, protein-cysteine, protein-GSH, rat 951

retinal degeneration, photoreceptor cell, behavior, startle reflex, electroretinogram (ERG), rat 303

## **Albumin**

anterior chamber, flare value, FITC-albumin, laser flare-cell meter 593

## **Aldose reductase**

corneal endothelium, galactosemia, diabetes mellitus, dog 319

## **Allergy**

hay fever conjunctivitis, atopy, interleukin-4 (IL-4), ragweed, guinea pig 487

## **Allograft rejection**

cyclosporine, keratoplasty, immunosuppression, dosing schedule, rat 421

## **Alpha-A crystallin**

C-terminus, truncation, lens, bovine, human 837

## **Alpha-glycerophosphate dehydrogenase**

development, succinate dehydrogenase, retina, angioblasts, menadione, retinal vasculature, dog 819

## **Angiogenesis**

choroid, vascular endothelium, heterogeneity, three dimensional gel, primate 621

choroidal fibroblast, vascular endothelium growth factor, gene expression, retinal pigment epithelial, human 1015

lymphangiogenesis, steroid inhibition, autoradiography, corneal vascularization 1

## **Animal model**

ocular melanoma, choroid, ciliary body, iris, mouse 399

## **Anterior chamber**

albumin, flare value, FITC-albumin, laser flare-cell meter 593

## **Aquaporin-1**

trabecular meshwork, glaucoma, water channels, human 1095

## **Aqueous humor**

insulin-like growth factor binding protein (IGFBP), vitreous humor, IGF, IGFBP-3, proteinase, diabetes mellitus, human, cattle (bovine) 127

## **Aqueous humor outflow facility**

ethacrynic acid, intraocular pressure, cynomolgus monkey, monkey eye 777

## **Arachidonylethanolamide**

intraocular pressure, anandamide, 2-hydroxypropyl- $\beta$ -cyclodextrin, rabbits 791

## **Argon green laser**

chorioretinal venous anastomosis, retinal vein occlusion, retinal pigment epithelial (RPE) scar, dog 63

## **Arrestin**

adaptation, human retina, immunohistochemistry 1165

## **Artery**

atheroma, retina, eye, model 573

## **Ascorbate (vitamin C)**

$\alpha$ -tocopherol (vitamin E), dihydrolipoic acid (DHLA), phenoxyl radical, glutathione (GSH), retina, oxidative protection, ultraviolet irradiation 181

## **Ascorbic acid**

glycation,  $\alpha$ -crystallin, circular dichroism, cataract, dehydroascorbic acid, protein modification, calf (bovine) 163

## **Atheroma**

artery, retina, eye, model 573

## **Atomic force microscope**

cornea, sclera, extracellular matrix 529

## **ATPase activity**

fluorimetric assay, lens epithelium, Ca-ATPase, 7-methylguanosine, thapsigargin 87

## **Atrial natriuretic peptide**

retinal pigment epithelium (RPE),  $\text{Cl}^-$  transport, intracellular  $\text{Cl}^-$  concentration, nitric oxide, cGMP, rabbit 391

## **Autoimmune uveitis**

melanin associated antigen (MAA), adhesion molecules, Ia antigen, intercellular adhesion molecule-1 (ICAM-1), leukocyte function antigen-1 (LFA-1), T cells, rat 703

## **Autoimmunity**

chimeric protein, eye, interleukin-2 (IL-2), *Pseudomonas* exotoxin 40 (PE40), rat 153

## **Axon degeneration**

optic nerve, idiopathic intracranial hypertension, optic atrophy, pseudotumor cerebri, papilledema 173

## **Axonal damage**

retinal ganglion cell, neuronal death, trophic, rat 119

## **Basement membrane**

corneal wound healing, eye glycoconjugates, lectins, bovine 959

## **Basic fibroblast growth factor (basic FGF)**

cataracts, Royal College of Surgeons (RCS) rat, macrophages, neovascularization, photoreceptor saving 585

## **Beaded filament**

cytoskeleton, intermediate filament, lens, human chromosome 3, human chromosome 20, cytokeratin genes, human 11

## **Binding sites**

calcitonin gene-related peptide, autoradiography, eye, monkey, pig, guinea pig, rat 783

## **Biodegradation**

drug delivery, microspheres, polyactide/glycolide, polymers, vitreous cavity, rabbit 761

## **Blood-retinal barrier**

retinal capillary endothelium, cell culture, A23187, permeability, tight junctions 435

## **Blood flow**

adenosine receptor, choroid, ischemia, retina, cat 323

## **C-terminus**

alpha-A crystallin, truncation, lens, bovine, human 837

## **$\text{Ca}^{2+}$ mobilization**

ciliary process, adrenergic and cholinergic drugs, organ culture, rabbit 629

## **Cadherins**

corneal epithelium, cell-cell adhesion molecules, cDNAs, rabbit 1135

- Calcitonin gene-related peptide**  
binding sites, autoradiography, eye, monkey, pig, guinea pig, rat 783
- Calcium channel antagonists**  
cornea, ultraviolet radiation, neurogenic inflammation, pain, rabbit 827
- Calpain**  
retina, photoreceptor, retinal degeneration, Royal College of Surgeons (RCS) rat 731  
sugar cataract, aldose reductase inhibitor, calcium, proteolysis, rat 27
- Carbachol**  
corneal epithelium, inositol trisphosphate, cyclic AMP, isoproterenol, phospholipase C 563
- Catalase**  
nitroblue tetrazolium, ischemia, xanthine oxidase, retina, rat 47
- Cataract**  
basic fibroblast growth factor (basic FGF), Royal College of Surgeons (RCS) rat, macrophages, neovascularization, photoreceptor saving 585  
cytochalasin D, vitamin C protection, enzyme leakage, lactate dehydrogenase isoenzymes, membrane damage, lens, rat 943  
lens epithelium, ultraviolet (UV) irradiation, calcium, physiology 71  
mixed disulfides, glycation, lens culture, oxidative stress, rat 109  
oxidative stress, aging, glutathione, protein-cysteine, protein-GSH, rat 951
- Cell culture**  
blood-retinal barrier, retinal capillary endothelium, A23187, permeability, tight junctions 435  
chronic lymphocytic leukemia, lymphocyte, glaucoma, feeder layer, human 137  
extracellular matrix, trabecular meshwork, collagenase 611  
human, retinal pigment epithelium (RPE), explant, transplantation, cellular isolation methods 677  
simian virus (SV)-40, cytokines, retinal pigment epithelium (RPE), intercellular adhesion molecule (ICAM)-1, reverse transcriptase-polymerase chain reaction (RT-PCR), tumor necrosis factor- $\alpha$  (TNF- $\alpha$ ), human 495
- Cell cycle**  
galactosemia, lens epithelial cells, acridine orange, nucleic acids, bovine (cattle) 269
- Cell death**  
near ultraviolet, retinal pigment epithelium (RPE), cattle (bovine) 1087
- Chimeric protein**  
autoimmunity, eye, interleukin-2 (IL-2), *Pseudomonas* exotoxin 40 (PE40), rat 153
- Chitin**  
fungal keratitis (keratomycosis), assay methods, cornea 637
- Chloride transport**  
tear film, conjunctiva, sodium transport, cotransport, membrane permeability, rabbit 927
- Chorioretinal venous anastomosis**  
argon green laser, retinal vein occlusion, retinal pigment epithelial (RPE) scar, dog 63
- Choroid**  
angiogenesis, vascular endothelium, heterogeneity, three dimensional gel, primate 621
- Choroidal fibroblast**  
angiogenesis, vascular endothelium growth factor, gene expression, retinal pigment epithelial, human 1015
- Chronic lymphocytic leukemia**  
cell culture, lymphocyte, glaucoma, feeder layer, human 137
- Ciliary epithelium**  
cyclic AMP, intraocular pressure (IOP), aqueous humour, cell culture 519  
protein phosphatase, iris-ciliary body, okadaic acid, rabbit 95
- Ciliary muscle cells**  
prostaglandins, cAMP, contraction assay, culture, porcine 1155
- Ciliary process**  
Ca<sup>2+</sup> mobilization, adrenergic and cholinergic drugs, organ culture, rabbit 629
- Circadian rhythms**  
intraocular pressure (IOP), light, aqueous flow, sympathectomy, rabbit 443
- Cl<sup>-</sup> transport**  
retinal pigment epithelium (RPE), atrial natriuretic peptide, intracellular Cl<sup>-</sup> concentration, nitric oxide, cGMP, rabbit 391
- Collagens**  
cornea, wound healing, haze, polymerase chain reaction (PCR), excimer laser, rat 879
- Conjunctiva**  
hyperemia, image analysis, blood vessels, redness, human 1101  
mucous secretion, neural stimulation, goblet cell, nerves, rat 985  
neural stimulation, mucous secretion, goblet cells, parasympathetic nerves, sympathetic nerves, sensory nerves, rat 993  
receptors, growth factors, epidermal growth factor (EGF), insulin-like growth factor I (IGF-I), insulin-like growth factor II (IGF-II), transforming growth factor  $\alpha$  (TGF $\alpha$ ), rabbit 905  
tear film, sodium transport, chloride transport, cotransport, membrane permeability, rabbit 927
- Conjunctival Langerhans cells**  
retinoic acid (Etretinate), mouse 167
- Contact lens**  
corneal endothelium, intracellular pH, CO<sub>2</sub>, hypoxia, rabbit 311
- Contactin**  
development, tenascin-C, plexiform layers, F11, retina, synapses, chicken 911
- Cornea**  
atomic force microscope, sclera, extracellular matrix 529  
calcium channel antagonists, ultraviolet radiation, neurogenic inflammation, pain, rabbit 827  
epithelium, fluorophotometry, carboxyfluorescein, permeability, rabbit 505  
platelet-activating factor (PAF), prostaglandins, PAF antagonists, corneal lipids, arachidonic acid, rabbit 769  
*Streptococcus pneumoniae* (pneumococcus), keratitis, mutant, complement-activation, pneumolysin, rabbit 281  
wound healing, collagens, haze, polymerase chain reaction (PCR), excimer laser, rat 879  
wound healing, fibronectin, epithelial migration, epithelial proliferation, human 331  
wound healing, radial keratotomy, collagen, glycosaminoglycan, immunohistochemistry, monkey 809
- Corneal endothelial cells**  
insulin-like growth factor-I (IGF-I), insulin receptor substrate-1 (IRS-1), collagen, rabbit 669
- Corneal endothelium**  
aldose reductase, galactosemia, diabetes mellitus, dog 319  
contact lens, intracellular pH, CO<sub>2</sub>, hypoxia, rabbit 311  
protein kinase C, phorbol ester, calcium, inositol phosphate, thrombin-receptor, phosphorylation, cattle (bovine) 35
- Corneal epithelium**  
cadherins, cell-cell adhesion molecules, cDNAs, rabbit 1135  
carbachol, inositol trisphosphate, cyclic AMP, isoproterenol, phospholipase C 563
- Corneal hydration**  
pH, corneal function, stromal acidosis, fluorophotometry, human 349
- Corneal stromal cells**  
platelet activating factor, ultraviolet irradiation, eicosanoids, phospholipids, rabbit 341
- Corneal vascularisation**  
fractals, alkali burns, human 263
- Corneal wound**  
epidermal growth factor, prostaglandin E<sub>2</sub>, wound healing 601
- Corneal wound healing**  
basement membrane, eye glycoconjugates, lectins, bovine 959
- Cortical cataracts**  
retroillumination photographs, measurement error, computer planimetry, sample size estimates, human 19

**Cyclic adenosine 3',5' monophosphate (cAMP)**

taurine transporter, retinal pigment epithelium (RPE), mRNA levels, cholera toxin, regulation, cell culture, human 843

**Cyclic AMP**

ciliary epithelium, intraocular pressure (IOP), aqueous humour, cell culture 519

**Cyclophotocoagulation**

intraocular pressure, neodymium:yttrium-aluminum-garnet (Nd:YAG) laser, ciliary body, glaucoma, cat 255

**Cyclosporine**

allograft rejection, keratoplasty, immunosuppression, dosing schedule, rat 421

**Cytochalasin D**

retinal adhesiveness, retinal pigment epithelium (RPE), actin, microvilli, rabbit 1109  
vitamin C protection, cataract, enzyme leakage, lactate dehydrogenase isoenzymes, membrane damage, lens, rat 945

**Cytokines**

cell culture, simian virus (SV)-40, retinal pigment epithelium (RPE), intercellular adhesion molecule (ICAM)-1, reverse transcriptase-polymerase chain reaction (RT-PCR), tumor necrosis factor- $\alpha$  (TNF- $\alpha$ ), human 495  
tolerance, uveitis, eye, therapy 857

**Cytoskeleton**

beaded filament, intermediate filament, lens, human chromosome 3, human chromosome 20, cytokeratin genes, human 11

**d.e. electroretinogram**

prostaglandins, prostaglandin  $F_{2\alpha}$  (PGF $_{2\alpha}$ ), PhXA41, retina, retinal pigment epithelium (RPE), rabbit 1073

**Decapsulation**

lens, dye injection, patch clamp, fluorescence 357

**Decorin**

trabecular meshwork, proteoglycan, cornea, immunocytochemistry, cell culture, bovine, human 727

**Degradable implant**

immunosuppression, local drug delivery, corneal transplant (keratoplasty), transplant rejection, cyclosporine 659

**Descemet's membrane**

fibronectin, P component, corneal endothelium, immunoelectron microscopy, human 865

**Development**

alpha-glycerophosphate dehydrogenase, succinate dehydrogenase, retina, angioblasts, menadione, retinal vasculature, dog 819  
contactin, tenascin-C, plexiform layers, F11, retina, synapses, chicken 911  
rat, retinal vasculature, growth retardation 737

**Diacylglycerol kinase 3**

gene mapping, human, mouse 1041

**Dopamine**

refractive errors, lens-induced, high performance liquid chromatography (HPLC), chicks 385

**Drug delivery**

biodegradation, microspheres, polyactide/glycolide, polymers, vitreous cavity, rabbit 761

**Drug-delivery system**

proliferative vitreoretinopathy (PVR), scleral plug, doxorubicin, pigmented rabbit 473

**Eicosanoids**

platelet activating factor, ultraviolet irradiation, corneal stromal cells, phospholipids, rabbit 341

**Electroretinogram (ERG)**

adenosine, retinal pigment epithelium (RPE), retina, chick 685  
ischemia, temperature, retina, recovery, rabbit 81

**Endogenous uveitis**

activated T lymphocyte, exogenous uveitis, aqueous humor, two-color flow cytometry, human 425

**Endothelin**

microcirculation, optic nerve, chronic ischemia, glaucoma, rabbit 1147

**Endothelin-1**

intraocular pressure (IOP), endothelin $_A$  (ET $_A$ ) receptor antagonist, ET $_B$  receptor agonist, indomethacin, intraocular pressure (IOP) 479

**Endotoxin-induced uveitis**

FK506, cytokines, T lymphocyte, adhesion molecules, rat 209

**Epidermal growth factor**

corneal wound, prostaglandin E $_2$ , wound healing 601

**Epithelium**

cornea, fluorophotometry, carboxyfluorescein, permeability, rabbit 505

**Ethacrynic acid**

aqueous humor outflow facility, intraocular pressure, cynomolgus monkey, monkey eye 777

**Exogenous uveitis**

activated T lymphocyte, endogenous uveitis, aqueous humor, two-color flow cytometry, human 425

**Experimental autoimmune uveoretinitis (EAU)**

suramin, autoimmune disease, uveitis, mouse, rat 887

**Extracellular matrix**

cell culture, trabecular meshwork, collagenase 611

**Extracellular matrix (ECM)**

retinal pigment epithelial (RPE) cells, cell-matrix attachment, intracellular signalling, human 373

**Eye glycoconjugates**

basement membrane, corneal wound healing, lectins, bovine 959

**Fibronectin**

Descemet's membrane, P component, corneal endothelium, immunoelectron microscopy, human 865

**FK506**

endotoxin-induced uveitis, cytokines, T lymphocyte, adhesion molecules, rat 209

**Flare value**

albumin, anterior chamber, FITC-albumin, laser flare-cell meter 593

**Fluorescent labeling**

lymphocyte dynamics, retinal circulation, scanning laser ophthalmoscope 579

**Fluorimetric assay**

ATPase activity, lens epithelium, Ca-ATPase, 7-methylguanosine, thapsigargin 87

**Fluorophotometry**

cornea, epithelium, carboxyfluorescein, permeability, rabbit 505

**Fractals**

corneal vascularisation, alkali burns, human 263  
vasculogenesis (angiogenesis), retinal vessels, cat 251

**Free amino acid concentration**

human vitreous, proliferative vitreoretinopathy, proliferative diabetic retinopathy, idiopathic preretinal macular fibrosis, glutamine 191

**Fungal keratitis (keratomycosis)**

chitin, assay methods, cornea 637

**Galactosemia**

aldose reductase, corneal endothelium, diabetes mellitus, dog 319  
cell cycle, lens epithelial cells, acridine orange, nucleic acids, bovine (cattle) 269

**Ganglion cells**

peripheral acuity, contrast, temporal frequency 1031

**Gene mapping**

diacylglycerol kinase 3, human, mouse 1041  
lens membrane protein, polymerase chain reaction (PCR), genomic DNA, human 215

**Glaucoma**

laser trabeculoplasty, matrix metalloproteinase, aqueous outflow pathway, extracellular matrix turnover 537

**Glycation**

$\alpha$ -crystallin, ascorbic acid, circular dichroism, cataract, dehydroascorbic

- acid, protein modification, calf (bovine) 163  
 cataract, mixed disulfides, lens culture, oxidative stress, rat 109
- Glycosylation**  
 rhodopsin, galactosyltransferase, oligosaccharide biosynthesis, human retina 413
- Growth factors**  
 receptors, conjunctiva, epidermal growth factor (EGF), insulin-like growth factor I (IGF-I), insulin-like growth factor II (IGF-II), transforming growth factor  $\alpha$  (TGF $\alpha$ ), rabbit 905
- Hay fever conjunctivitis**  
 allergy, atopy, interleukin-4 (IL-4), ragweed, guinea pig 487
- Heat shock protein**  
 ocular development, molecular chaperone, mouse 1125
- Hemodynamics**  
 acarbose, retina, diabetes, rats 741
- Herpes simplex virus (HSV)**  
 intercellular adhesion molecule-1 (ICAM-1), leukocyte-function associated antigen-1 (LFA-1), cornea, adhesion molecules 55  
 ocular disease, mouse, host age, mortality, virus inoculum 145
- Human**  
 cell culture, retinal pigment epithelium (RPE), explant, transplantation, cellular isolation methods 677  
 protease, tears, caseinolytic, dimorphism 1081
- Human ciliary epithelium**  
 Na,K-ATPase, thapsigargin, ATP hydrolysis 651
- Human cornea**  
 transforming growth factor- $\beta$  (TGF- $\beta$ ), reverse transcriptase-polymerase chain reaction (RT-PCR), isoform, mRNA 235
- Human corneal epithelial proteins**  
*Pseudomonas aeruginosa* pili, receptors, carbohydrates, lectins 969
- Human corneal stroma**  
 keratocyte density, scleral fibroblast density, DNA 459
- Human retinal pigment epithelium**  
 vasoactive intestinal peptide (VIP), butyrate, cyclic AMP, tissue culture 1009
- Human vitreous**  
 free amino acid concentration, proliferative vitreoretinopathy, proliferative diabetic retinopathy, idiopathic preretinal macular fibrosis, glutamine 191
- Hyperemia**  
 conjunctiva, image analysis, blood vessels, redness, human 1101
- Idiopathic intracranial hypertension**  
 optic nerve, axon degeneration, optic atrophy, pseudotumor cerebri, papilledema 173
- Image analysis**  
 conjunctiva, hyperemia, blood vessels, redness, human 1101
- Immunosuppression**  
 degradable implant, local drug delivery, corneal transplant (keratoplasty), transplant rejection, cyclosporine 659
- Inositol polyphosphates**  
 retina, arrestin, phosphatidylinositols, phytic acid, cattle (bovine) 851
- Inositol trisphosphate**  
 carbachol, corneal epithelium, cyclic AMP, isoproterenol, phospholipase C 563
- Insulin-like growth factor**  
 vitreous humor, proteinase activity, insulin-like growth factor binding protein, aqueous humor, eye 555
- Insulin-like growth factor binding protein (IGFBP)**  
 vitreous humor, aqueous humor, IGF, IGFBP-3, proteinase, diabetes mellitus, human, cattle (bovine) 127
- Insulin-like growth factor-I (IGF-I)**  
 corneal endothelial cells, insulin receptor substrate-1 (IRS-1), collagen, rabbit 669
- Intercellular adhesion molecule-1 (ICAM-1)**  
 leukocyte function antigen-1 (LFA-1), tumor metastasis, cell adhesion molecules, T cells, mouse 719
- leukocyte-function associated antigen-1 (LFA-1), herpes simplex virus (HSV-1), cornea, adhesion molecules 55
- Interferon- $\gamma$**   
 lens, ocular inflammation  $\alpha$ -crystallin, transgenic, murine 1063
- Interleukin-8**  
 proliferative diabetic retinopathy, proliferative vitreoretinopathy, macrophage-colony stimulating factor, monocyte chemotactic protein-1, vitreous, human 1045
- Intermediate filaments**  
 lens, lamin-like, cytoskeletal protein-49 (CP-49) and variants 545
- Intracellular pH**  
 contact lens, corneal endothelium, CO<sub>2</sub>, hypoxia, rabbit 311
- Intraocular pressure (IOP)**  
 arachidonyl ethanolamide, anandamide, 2-hydroxypropyl- $\beta$ -cyclodextrin, rabbits 791  
 cyclophotocoagulation, neodymium:yttrium-aluminum-garnet (Nd:YAG) laser, ciliary body, glaucoma, cat 255  
 rat, TonoPen, anesthesia, intraocular pressure 711  
 endothelin-1, endothelin<sub>A</sub> (ET<sub>A</sub>) receptor antagonist, ET<sub>B</sub> receptor agonist, indomethacin, rabbit 479  
 light, circadian rhythms, aqueous flow, sympathectomy, rabbit 443
- Intraocular tumor**  
 melanoma, tissue-type plasminogen activator (tPA), tumor metastasis, mouse 449
- IOP**  
 ciliary epithelium, cyclic AMP, aqueous humour, cell culture 519
- Iris dilator**  
 iris sphincter, sympathetic denervation, adrenergic receptors, G proteins, cyclic AMP, adenylate cyclase, rabbit 405
- Iris sphincter**  
 iris dilator, sympathetic denervation, adrenergic receptors, G proteins, cyclic AMP, adenylate cyclase, rabbit 405
- Ischemia**  
 electroretinogram (ERG), temperature, retina, recovery, rabbit 81  
 nitroblue tetrazolium, catalase, xanthine oxidase, retina, rat 47
- Jun B**  
 retinal damage, Müller cells, retina, injury, *in situ* hybridization, rat 1021
- Keratitis**  
*Pseudomonas aeruginosa*, steroid-antibiotic combination therapy, tobramycin, ciprofloxacin, steroids, rabbit 229  
*Streptococcus pneumoniae* (pneumococcus), cornea, mutant, complement-activation, pneumolysin, rabbit 281
- Keratocyte density**  
 human corneal stroma, scleral fibroblast density, DNA 459
- Keratoplasty**  
 cyclosporine, allograft rejection, immunosuppression, dosing schedule, rat 421
- Lacrimal gland**  
 retinoic acid receptors, vitamin A, rat, rabbit, human 1055
- Lamin-like**  
 lens, intermediate filaments, cytoskeletal protein-49 (CP-49) and variants 545
- Laser trabeculoplasty**  
 glaucoma, matrix metalloproteinase, aqueous outflow pathway, extracellular matrix turnover 537
- Lens**  
 decapsulation, dye injection, patch clamp, fluorescence 357  
 interferon- $\gamma$ , ocular inflammation,  $\alpha$ -crystallin, transgenic, murine 1063  
 intermediate filaments, lamin-like, cytoskeletal protein-49 (CP-49) and variants 545  
 membrane proteins, crosslinking, calf (bovine) 799  
 N-acetyltransferase, arylamine, detoxification, bovine 873  
 phospholipids, <sup>31</sup>P nuclear magnetic resonance (<sup>31</sup>P NMR), species, human 937

**Lens epithelial cells**

cell cycle, galactosemia, acridine orange, nucleic acids, bovine (cattle) 269

**Lens epithelium**

ATPase activity, fluorimetric assay, Ca-ATPase, 7-methylguanosine, thapsigargin 87  
cataract, UV irradiation, calcium, physiology 71

**Lens membrane protein**

gene mapping, polymerase chain reaction (PCR), genomic DNA, human 215

**Lens organ culture**

smoke condensate, lens epithelium, lens membranes, [<sup>86</sup>Rb]-uptake, [<sup>86</sup>Rb]-efflux, cataract, rat 295

**Lens Raman spectroscopy**

membrane structure, lipid, human 511

**Lens-induced**

dopamine, refractive errors, high performance liquid chromatography (HPLC), chicks 385

**Leukocyte function antigen-1 (LFA-1)**

intercellular adhesion molecule-1 (ICAM-1), tumor metastasis, cell adhesion molecules, T cells, mouse 719

**Leukocyte-function associated antigen-1 (LFA-1)**

intercellular adhesion molecule-1 (ICAM-1), herpes simplex virus (HSV-1), cornea, adhesion molecules 55

**Leukotrienes**

retinal light damage, arachidonic acid, eicosanoids, rat retina 1001

**Light**

intraocular pressure (IOP), circadian rhythms, aqueous flow, sympathectomy, rabbit 443

**Light adaptation**

phosphatidylinositol, rod outer segments, bovine, retina 1025

**Lipocalins**

tears, cholesterol, fatty acids, ligands, human 363

**Local drug delivery**

degradable implant, immunosuppression, corneal transplant (keratoplasty), transplant rejection, cyclosporine 659

**Lymphangiogenesis**

angiogenesis, steroid inhibition, autoradiography, corneal vascularization 1

**Lymphocyte**

cell culture, chronic lymphocytic leukemia, glaucoma, feeder layer, human 137

**Lymphocyte dynamics**

fluorescent labeling, retinal circulation, scanning laser ophthalmoscope 579

**Müller cells**

retinal damage, jun B, retina, injury, *in situ* hybridization, rat 1021

**Magnetic resonance imaging (MRI)**

magnetization transfer contrast (MTC), sugar cataracts, lens, dog 1035

**Magnetization transfer contrast (MTC)**

magnetic resonance imaging (MRI), sugar cataracts, lens, dog 1035

**Mannose receptor**

rod outer segments, plasma membrane proteins, phagocytosis, retinal pigment epithelium, rhodopsin, cattle (bovine) 465

**Matrix metalloproteinase**

glaucoma, laser trabeculoplasty, aqueous outflow pathway, extracellular matrix turnover 537

**Melanin associated antigen (MAA)**

autoimmune uveitis, adhesion molecules, Ia antigen, intercellular adhesion molecule-1 (ICAM-1), leukocyte function antigen-1 (LFA-1), T cells, rat 703

**Melanoma**

tissue-type plasminogen activator (tPA), intraocular tumor, tumor metastasis, mouse 449

**Membrane proteins**

lens, crosslinking, calf (bovine) 799

**Membrane structure**

lens Raman spectroscopy, lipid, human 511

**Microcirculation**

endothelin, optic nerve, chronic ischemia, glaucoma, rabbit 1147

**Microspheres**

biodegradation, drug delivery, polyactide/glycolide, polymers, vitreous cavity, rabbit 761

**Mixed disulfides**

cataract, glycation, lens culture, oxidative stress, rat 109

**Mouse**

herpes simplex virus (HSV), ocular disease, host age, mortality, virus inoculum 145

**Mucous secretion**

conjunctiva, neural stimulation, goblet cell, nerves, rat 985  
conjunctiva, neural stimulation, goblet cells, parasympathetic nerves, sympathetic nerves, sensory nerves, rat 993

**N-acetyltransferase**

lens, arylamine, detoxification, bovine 873

**Na,K-ATPase**

human ciliary epithelium, thapsigargin, ATP hydrolysis 651

**Near ultraviolet**

cell death, retinal pigment epithelium (RPE), cattle (bovine) 1087

**Neodymium:yttrium-aluminum-garnet (Nd:YAG) laser**

cyclophotocoagulation, intraocular pressure, ciliary body, glaucoma, rat 255

**Neural stimulation**

conjunctiva, mucous secretion, goblet cell, nerves, rat 985  
conjunctiva, mucous secretion, goblet cells, parasympathetic nerves, sympathetic nerves, sensory nerves, rat 993

**Nitric oxide synthase**

retinal microvascular endothelial cells, retinal microvascular pericytes, nitric oxide, retina, human, rat, cattle (bovine) 285

**Nitroblue tetrazolium**

catalase, ischemia, xanthine oxidase, retina, rat 47

**Ocular cicatricial pemphigoid**

retinoids, conjunctiva, cornea, vitamin A deficiency, rabbit, human 1115

**Ocular development**

heat shock protein, molecular chaperone, mouse 1125

**Ocular disease**

herpes simplex virus (HSV), mouse, host age, mortality, virus inoculum 145

**Ocular inflammation**

interferon- $\gamma$ , lens,  $\alpha$ -crystallin, transgenic, murine 1063

**Ocular melanoma**

animal model, choroid, ciliary body, iris, mouse 399

**Optic nerve**

axon degeneration, idiopathic intracranial hypertension, optic atrophy, pseudotumor cerebri, papilledema 173  
endothelin, microcirculation, chronic ischemia, glaucoma, rabbit 1147

**Oxidative stress**

cataract, aging, glutathione, protein-cysteine, protein-GSH, rat 951  
pyruvate, rat lens, cataract, crystallins, peroxide 643

**P component**

Descemet's membrane, fibronectin, corneal endothelium, immunoelectron microscopy, human 865

**Peripheral acuity**

ganglion cells, contrast, temporal frequency 1031

**pH**

corneal hydration, corneal function, stromal acidosis, fluorophotometry, human 349

**Phosphatidylinositol**

light adaptation, rod outer segments, bovine, retina 1025

**Phosphodiesterase  $\beta$ -subunit (PDEB)**

rod-cone dysplasia 1, cGMP phosphodiesterase, progressive retinal atrophy, retinal degeneration, dog 243

**Phospholipids**

lens,  $^{31}\text{P}$  nuclear magnetic resonance ( $^{31}\text{P}$  NMR), species, human 937

**Plasma membrane proteins**

mannose receptor, rod outer segments, phagocytosis, retinal pigment epithelium, rhodopsin, cattle (bovine) 465

**Platelet-activating factor (PAF)**

prostaglandins, cornea, PAF antagonists, corneal lipids, arachidonic acid, rabbit 769  
ultraviolet irradiation, corneal stromal cells, eicosanoids, phospholipids, rabbit 341

**Plexiform layers**

contactin, development, tenascin-C 911

**Proliferative diabetic retinopathy**

proliferative vitreoretinopathy, interleukin-8, macrophage-colony stimulating factor, monocyte chemotactic protein-1, vitreous, human 1045

**Proliferative vitreoretinopathy (PVR)**

drug-delivery system, scleral plug, doxorubicin, pigmented rabbit 473  
interleukin-8, proliferative diabetic retinopathy, macrophage-colony stimulating factor, monocyte chemotactic protein-1, vitreous, human 1045

**Prostaglandin E<sub>2</sub>**

corneal wound, epidermal growth factor, wound healing 601

**Prostaglandins**

ciliary muscle cells, cAMP, contraction assay, culture, porcine 1155  
d.c. electroretinogram,  $\text{PGF}_{20}$ , PhXA41, retina, retinal pigment epithelium (RPE), rabbit 1073  
platelet-activating factor (PAF), cornea, PAF antagonists, corneal lipids, arachidonic acid, rabbit 769

**Protease**

human, tears, caseinolytic, dimorphism 1081

**Protein kinase C**

corneal endothelium, phorbol ester, calcium, inositol phosphate, thrombin-receptor, phosphorylation, cattle (bovine) 35

**Protein phosphatase**

ciliary epithelium, iris-ciliary body, okadaic acid, rabbit 95

**Proteinase activity**

insulin-like growth factor, vitreous humor, insulin-like growth factor binding protein, aqueous humor, eye 555

**Proteolysis**

ubiquitin, retinal pigment epithelium (RPE), rod outer segments (ROS), reticulocytes, human, bovine 751

***Pseudomonas aeruginosa***

keratitis, steroid-antibiotic combination therapy, tobramycin, ciprofloxacin, steroids, rabbit 229

***Pseudomonas aeruginosa* pili**

human corneal epithelial proteins, receptors, carbohydrates, lectins 969

**Pyruvate**

oxidative stress, rat lens, cataract, crystallins, peroxide 643

**Radial keratotomy**

cornea, wound healing, collagen, glycosaminoglycan, immunohistochemistry, monkey 809

**Rat**

development, retinal vasculature, growth retardation 737  
intraocular pressure, TonoPen, anesthesia, intraocular pressure 711

**Rat lens**

oxidative stress, pyruvate, cataract, crystallins, peroxide 643

**Receptors**

conjunctiva, growth factors, epidermal growth factor (EGF), insulin-like growth factor I (IGF-I), insulin-like growth factor II (IGF-II), transforming growth factor  $\alpha$  (TGF $\alpha$ ), rabbit 905

**Refractive errors**

dopamine, lens-induced, high performance liquid chromatography (HPLC), chicks 385

**Retina**

acarbose, hemodynamics, diabetes, rats 741

alpha-glycerophosphate dehydrogenase, development, succinate dehydrogenase, angioblasts, menadione, retinal vasculature, dog 819  
artery, atheroma, eye, model 573  
calpain, photoreceptor, retinal degeneration, Royal College of Surgeons (RCS) rat 731  
inositol polyphosphates, arrestin, phosphatidylinositols, phytic acid, cattle (bovine) 851  
retinal pigment epithelium (RPE), vitamin E, age-related macular degeneration (ARMD), antioxidants, human 693  
vitamin D receptor (VDR), calbindin-D<sub>28k</sub>, ciliary body, plasma membrane calcium pump, human 101

**Retinal adhesiveness**

cytochalasin D, retinal pigment epithelium (RPE), actin, microvilli, rabbit 1109

**Retinal capillary endothelium**

blood-retinal barrier, cell culture, A23187, permeability, tight junctions 435

**Retinal circulation**

fluorescent labeling, lymphocyte dynamics, scanning laser ophthalmoscope 579

**Retinal damage**

jun B, Müller cells, retina, injury, *in situ* hybridization, rat 1021

**Retinal degeneration**

aging, photoreceptor cell, behavior, startle reflex, electroretinogram (ERG), rat 303

**Retinal ganglion cell**

axonal damage, neuronal death, trophic, rat 119

**Retinal light damage**

leukotrienes, arachidonic acid, eicosanoids, rat retina 1001

**Retinal microcirculation**

acridine orange, scanning laser ophthalmoscope, endothelium, leukocytes, rat 233

**Retinal microvascular endothelial cells**

nitric oxide synthase, retinal microvascular pericytes, nitric oxide, retina, human, rat, cattle (bovine) 285

**Retinal microvascular pericytes**

nitric oxide synthase, retinal microvascular endothelial cells, nitric oxide, retina, human, rat, cattle (bovine) 285

**Retinal pigment epithelial (RPE) cells**

extracellular matrix (ECM), cell-matrix attachment, intracellular signalling, human 373

**Retinal pigment epithelium (RPE)**

adenosine, electroretinogram (ERG), retina, chick 685  
atrial natriuretic peptide,  $\text{Cl}^-$  transport, intracellular  $\text{Cl}^-$  concentration, nitric oxide, cyclic GMP (cGMP), rabbit 391  
cell culture, human, explant, transplantation, cellular isolation methods 677  
cell culture, simian virus (SV)-40, cytokines, intercellular adhesion molecule (ICAM)-1, reverse transcriptase-polymerase chain reaction (RT-PCR), tumor necrosis factor- $\alpha$  (TNF- $\alpha$ ), human 495  
cell death, near ultraviolet, cattle (bovine) 1087  
proteolysis, ubiquitin, rod outer segments (ROS), reticulocytes, human, bovine 751  
retina, vitamin E, age-related macular degeneration (ARMD), antioxidants, human 693  
retinal transplantation, development, cograf 199  
taurine transporter, cyclic adenosine 3',5' monophosphate (cAMP), mRNA levels, cholera toxin, regulation, cell culture, human 843  
zinc, catalase, metallothionein, cell culture, human 897

**Retinal transplantation**

retinal pigment epithelium (RPE), development, cograf 199

**Retinal vasculature**

development, rat, growth retardation 737

**Retinal vessels**

vasculogenesis (angiogenesis), fractals, cat 251

**Retinoic acid (Etreinate)**

conjunctival Langerhans cells, mouse 167

**Retinoic acid receptors**

lacrimal gland, vitamin A, rat, rabbit, human 1055

**Retinoids**

ocular cicatricial pemphigoid, conjunctiva, cornea, vitamin A deficiency, rabbit, human 1115

**Retroillumination photographs**

cortical cataracts, measurement error, computer planimetry, sample size estimates, human 19

**Rhodopsin**

glycosylation, galactosyltransferase, oligosaccharide biosynthesis, human retina 413

**Rod outer segments (ROS)**

mannose receptor, plasma membrane proteins, phagocytosis, retinal pigment epithelium, rhodopsin, cattle (bovine) 465  
phosphatidylinositol, light adaptation, bovine, retina 1025  
proteolysis, ubiquitin, retinal pigment epithelium (RPE), reticulocytes, human, bovine 751

**Rod-cone dysplasia 1**

phosphodiesterase  $\beta$ -subunit (PDEB), cGMP phosphodiesterase, progressive retinal atrophy, retinal degeneration, dog 243

**Royal College of Surgeons (RCS) rat**

basic fibroblast growth factor (FGF), cataracts, macrophages, neovascularization, photoreceptor saving 585

**Scanning laser ophthalmoscope**

acridine orange, retinal microcirculation, endothelium, leukocytes, rat 233

**Sclera**

atomic force microscope, cornea, extracellular matrix 529

**Simian virus (SV)-40**

cell culture, cytokines, retinal pigment epithelium (RPE), intercellular adhesion molecule (ICAM)-1, reverse transcriptase-polymerase chain reaction (RT-PCR), tumor necrosis factor- $\alpha$  (TNF- $\alpha$ ), human 495

**Smoke condensate**

lens organ culture, lens epithelium, lens membranes, [ $^{86}\text{Rb}$ ]-uptake, [ $^{86}\text{Rb}$ ]-efflux, cataract, rat 295

**Sodium chloride intake**

active transport, lens crystallins, potassium channels, electrophysiology, rats 159

**Sodium transport**

chloride transport, tear film, conjunctiva, cotransport, membrane permeability, rabbit 927

**Steroid inhibition**

angiogenesis, lymphangiogenesis, autoradiography, corneal vascularization 1

**Steroid-antibiotic combination therapy**

*Pseudomonas aeruginosa*, keratitis, tobramycin, ciprofloxacin, steroids, rabbit 229

***Streptococcus pneumoniae* (pneumococcus)**

cornea, keratitis, mutant, complement-activation, pneumolysin, rabbit 281

**Succinate dehydrogenase**

alpha-glycerophosphate dehydrogenase, development, retina, angioblasts, menadione, retinal vasculature, dog 819

**Sugar cataract**

calpain, aldose reductase inhibitor, calcium, proteolysis, rat 27

**Sugar cataracts**

magnetic resonance imaging (MRI), magnetization transfer contrast (MTC), lens, dog 1035

**Suramin**

experimental autoimmune uveoretinitis (EAU), autoimmune disease, uveitis, mouse, rat 887

**Sympathetic denervation**

iris sphincter, iris dilator, adrenergic receptors, G proteins, cyclic AMP, adenylate cyclase, rabbit 405

**Taurine transporter**

cyclic adenosine 3',5' monophosphate (cAMP), retinal pigment epithelium (RPE), mRNA levels, cholera toxin, regulation, cell culture, human 843

**Tear film**

conjunctiva, sodium transport, chloride transport, cotransport, membrane permeability, rabbit 927

**Tear flow**

tear mixing, fluorometry, human 275

**Tear mixing**

tear flow, fluorometry, human 275

**Tears**

human, protease, caseinolytic, dimorphism 1081  
lipocalins, cholesterol, fatty acids, ligands, human 363

**Temperature**

electroretinogram (ERG), ischemia, retina, recovery, rabbit 81

**Tenascin-C**

contactin, development, plexiform layers, F11, retina, synapses, chicken 911

**Thapsigargin**

human ciliary epithelium, Na,K-ATPase, ATP hydrolysis 651

**Tissue-type plasminogen activator (tPA)**

melanoma, intraocular tumor, tumor metastasis, mouse 449

 **$\alpha$ -tocopherol (vitamin E)**

ascorbate (vitamin C), dihydrolipoic acid (DHLA), phenoxyl radical, reduced glutathione (GSH), retina, oxidative protection, ultraviolet irradiation 181

**Tolerance**

cytokines, uveitis, eye, therapy 857

**TonoPen**

intraocular pressure, rat, anesthesia, intraocular pressure 711

**Trabecular meshwork**

aquaporin-1, glaucoma, water channels, human 1095  
cell culture, extracellular matrix, collagenase 611  
decorin, proteoglycan, cornea, immunocytochemistry, cell culture, bovine, human 727

**Transforming growth factor- $\beta$  (TGF- $\beta$ )**

human cornea, reverse transcriptase-polymerase chain reaction (RT-PCR), isoform, mRNA 235

**Truncation**

alpha-A crystallin, C-terminus, lens, bovine, human 837

**Tumor metastasis**

intercellular adhesion molecule-1 (ICAM-1), leukocyte function antigen-1 (LFA-1), cell adhesion molecules, T cells, mouse 719

**Ubiquitin**

proteolysis, retinal pigment epithelium (RPE), rod outer segments (ROS), reticulocytes, human, bovine 751

**Ultraviolet irradiation**

platelet activating factor, corneal stromal cells, eicosanoids, phospholipids, rabbit 341

**Ultraviolet radiation**

calcium channel antagonists, cornea, neurogenic inflammation, pain, rabbit 827

**UV irradiation**

cataract, lens epithelium, calcium, physiology 71

**Uveitis**

cytokines, tolerance, eye, therapy 857

**Vascular endothelium**

angiogenesis, choroid, heterogeneity, three dimensional gel, primate 621

**Vascular endothelial growth factor**

angiogenesis, choroidal fibroblast, gene expression, retinal pigment epithelium, human 1015

**Vasculogenesis (angiogenesis)**

fractals, retinal vessels, cat 251

**Vasoactive intestinal peptide (VIP)**

human retinal pigment epithelium, butyrate, cyclic AMP, tissue culture 1009

**Vitamin C protection**

cytochalasin D, cataract, enzyme leakage, lactate dehydrogenase isoenzymes, membrane damage, lens, rat 943

**Vitamin D receptor (VDR)**

retina, calbindin-D<sub>28k</sub>, ciliary body, plasma membrane calcium pump,  
human 101

**Vitamin E**

retina, retinal pigment epithelium (RPE), age-related macular  
degeneration (ARMD), antioxidants, human 693

**Vitreous humor**

insulin-like growth factor, proteinase activity, insulin-like growth factor  
binding protein, aqueous humor, eye 555  
insulin-like growth factor binding protein (IGFBP), aqueous humor, IGF,  
IGFBP-3, proteinase, diabetes mellitus, human, cattle (bovine) 127

**Wound healing**

cornea, collagens, haze, polymerase chain reaction (PCR), excimer laser,  
rat 879  
cornea, fibronectin, epithelial migration, epithelial proliferation, human  
331  
cornea, radial keratotomy, collagen, glycosaminoglycan,  
immunohistochemistry, monkey 809

**Zinc**

retinal pigment epithelium, catalase, metallothionein, cell culture, human  
897
